Horse Scale

The integrated scale

- ❑ Thanks to a weight of 85 kg, the scale is very easy to handle and move
- ❑ You have a better control of the weight of your horses for the feeding, an optimal training, a diet and before anaesthesia
- ❑ Display and accumulator are integrated in the platform. The operation occurs with foot-push-button. When not in use the scale shuts off automatically.
- ❑ The scale is made of a robust hot-galvanized frame with a non-slip rubber covering

Technical Data

Length:	2200 mm
Width:	1000 mm
Height:	85 - 95 mm
Weight:	85 kg
Loading capacity:	1000 kg

The scale is not authorized for official calibration
